

Data Management and Artificial Intelligence Homework 5

Task 1 *Seaborn warm-up exercise*

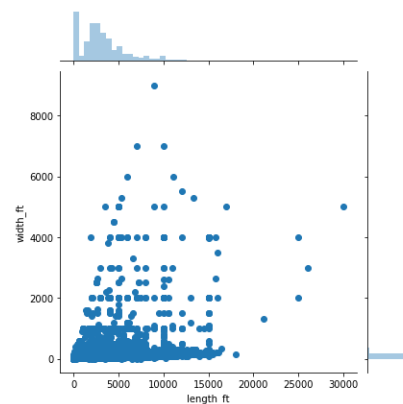

In this task, you will deal with the file “runways.csv” which stores the information of runways in the world.

1. Plot the distribution of the length with histogram for runways. Ten bins are suggested.
2. Plot the joint distribution of the length and width for runways.

The desired output figures are as follows:

Task1-1

Task1-2
